

# DGS UNMIG

The Directorate General for Safety National Mining Office for Hydrocarbons and Georesources is accountable for the activities of technical management, monitoring, supervision and environmental safety of upstream activities.

To carry out this mission the Directorate General for safety deploys a rich heritage of technical, administrative and policy know-how in the hydrocarbon sector that in 2017 celebrates its 60th anniversary from its foundation. Such commitment delivers excellent results in the field of prevention by the UNMIG Sections on Italian territory along with Chemical and Mineralogical Analysis Laboratories.

A renewed momentum in skills has reached a milestone in 2015 when DGRME (Directorate General for Mineral Resources and Energy) was transformed in the Directorate General for Safety- UNMIG - as a result of the transposition of DIRECTIVE 2013/30 / EU for safety of offshore activities, with the ultimate objective of integrating environmental and socio-economic aspects in the management of the underground mineral and energetic resources: hydrocarbon, raw materials and geothermy. In this framework the Directorate is committed to continuous action in monitoring safety objectives and sustainable development of upstream activities in Italy, in international relations to guarantee an exchange of best practices and in the development of regulations and cutting edge policy. In this renewed role, alongside traditional activities, also the dialogue with stakeholders, communities and citizens, statistical analysis, open data and applied scientific research have become strategic. From 2014, the Directorate created and coordinates a network of national research centres and universities specialized in the various aspects of safety and of relevant strategic sector.

Since 2014, in response to the growing importance and to the strong interest in the European and global scenery on the issue of the safety of offshore activities, DGS UNMIG considered strategic to start a series of partnerships with Universities, Research Institutions and Armed Forces. The partnerships set up till now produced positive effects in testing and improving skills in monitoring of offshore operations.

## OFFSHORE SAFETY: INSTRUMENTS FOR DIRECTIVE 2013/30 EU IMPLEMENTATION

**30<sup>th</sup> MARCH 2017  
1.30-4.00 p.m.**

Ravenna, Pala DeAndrè - Tech Talk Zone 1 (Hall 4)

# OFFSHORE SAFETY: INSTRUMENTS FOR DIRECTIVE 2013/30 EU IMPLEMENTATION

The Conference aims to show the instruments implemented in connection with Legislative Decree n. 145, 18th August 2015 transposing the Directive 2013/30/ EU on "safety of offshore oil and gas operations". With these instruments, European Commission has set the minimum conditions to guarantee the safety for offshore prospection, exploration and production of hydrocarbons. Among the main innovations, there is the institution of a Committee for Offshore Safety, headed as president Prof. Mesini, recently appointed. The Committee performs activities related to the regulation, supervision and control in order of offshore upstream sector to prevent major accidents and to limit their consequences. The Structure is based at the Ministry of Economic Development and is held by a central body and local articulations on the territory and makes use of the structures and human resources already foreseen. The meeting is the occasion to present important news and to introduce also tools by the Politecnico di Torino, by the RINA SERVICES, by the DNV GL and by Joint Research Centre in support to the implementation of the Directive.

- 1.30 pm REGISTRATION
- 2.00 pm INTRODUCTION  
**Ezio Mesini**  
*President of Committee for Offshore Safety*
- 2.15 pm REGULATORY PROCEDURES  
**Arnaldo Vioto**  
*Director National Mining Office for Hydrocarbons and Georesources - Section of Naples  
Ministry of Economic Development*  
**Monica Mazzaresse**  
*Committee for Offshore Safety Secretariat  
Ministry of Economic Development*
- 2.45 pm THE OFFSHORE DIRECTIVE ADOPTION: THE NEWS  
**Raffaella Gerboni**  
*Seadog Denerg Coordinator Politecnico of Torino*  
**Stefano Copello**  
*Sector Manager Offshore and Infrastructure Services  
Development RINA SERVICES S.p.A.*  
**Andrea Spessa**  
*Area Manager Italy & Mediterranean DNV GL - Oil & Gas*  
**Bogdan Vamanu**  
*Research Fellow, EC JRC, Directorate C. Energy,  
Transport and Climate*  
  
Chairman: **Roberto Cianella**  
*Staff of the Director-General for Safety - National Mining  
for Hydrocarbons and Georesources - Official in charge  
of engineering support and international activities*
- 3.45 pm CONCLUSIONS  
**Giancarlo Giacchetta**  
*Director National Mining Office for Hydrocarbons  
and Georesources - Section of Bologna
